HR Policy Assistant.

Answer employee HR questions in English or Bangla — grounded in the company handbook, with citations.

Bilingual
English & Bangla

Grounded
Handbook-only answers

Evaluated
50-question blind test

HR teams answer the same questions every week.

Leave balance. Maternity entitlement.
Gratuity calculation. Attendance rules.

Employees wait. HR teams repeat.
Policy docs exist — but nobody reads them.

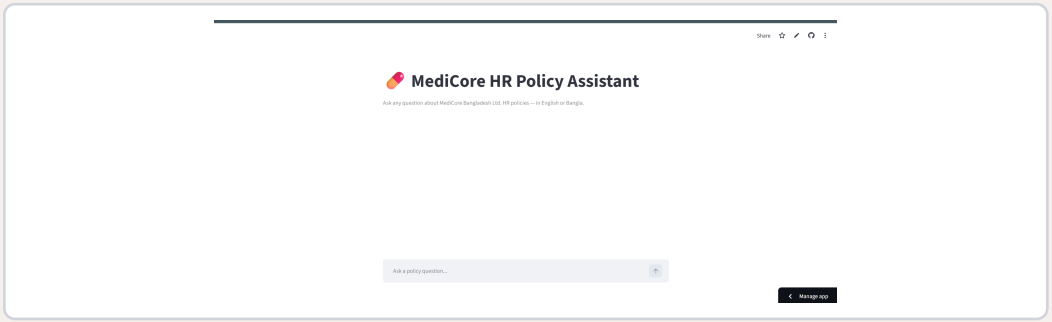

10×	0%	Days
same questions	handbook reads	avg wait time

The solution:
An assistant that reads the handbook for them — in any language, instantly.
No hallucination. No guessing.
Just policy answers with citations.

Delayed answers
Staff wait days for policy info

Repetitive load
HR repeats the same 10 questions

Language gap
Bangla queries often go unanswered

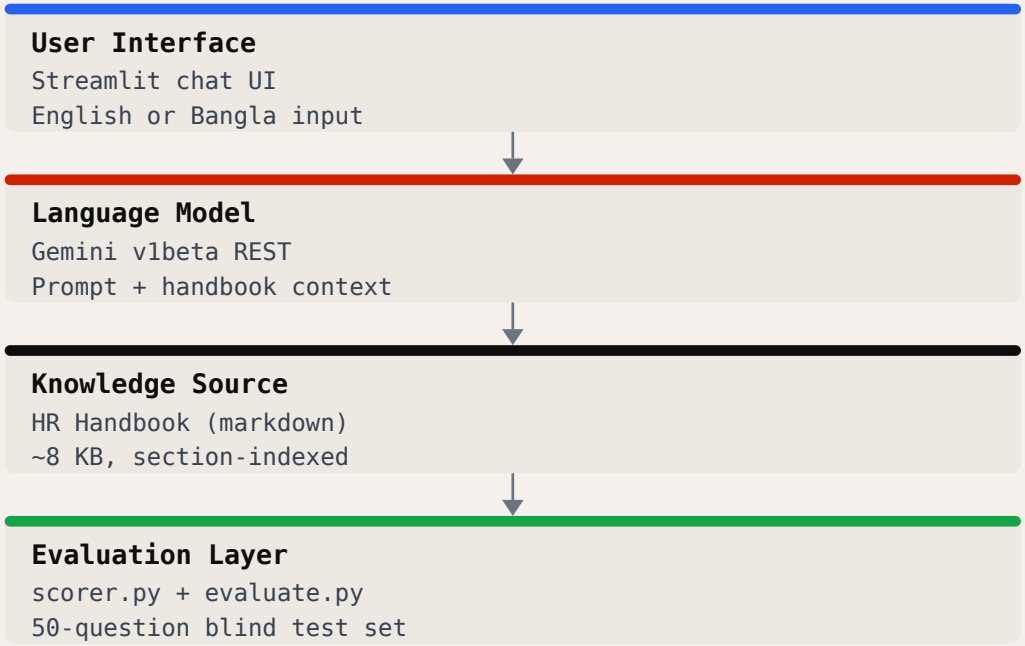

Get an answer from the handbook.

01 **User asks**
Type in English or Bangla

02 **LLM retrieves**
Gemini searches the handbook

03 **Answer returned**
Cited section included

04 **Refusals**
Out-of-scope → contact HR

github.com/tarifhassan27/hr-policy-assistant

Ask in English.
Get a cited answer.

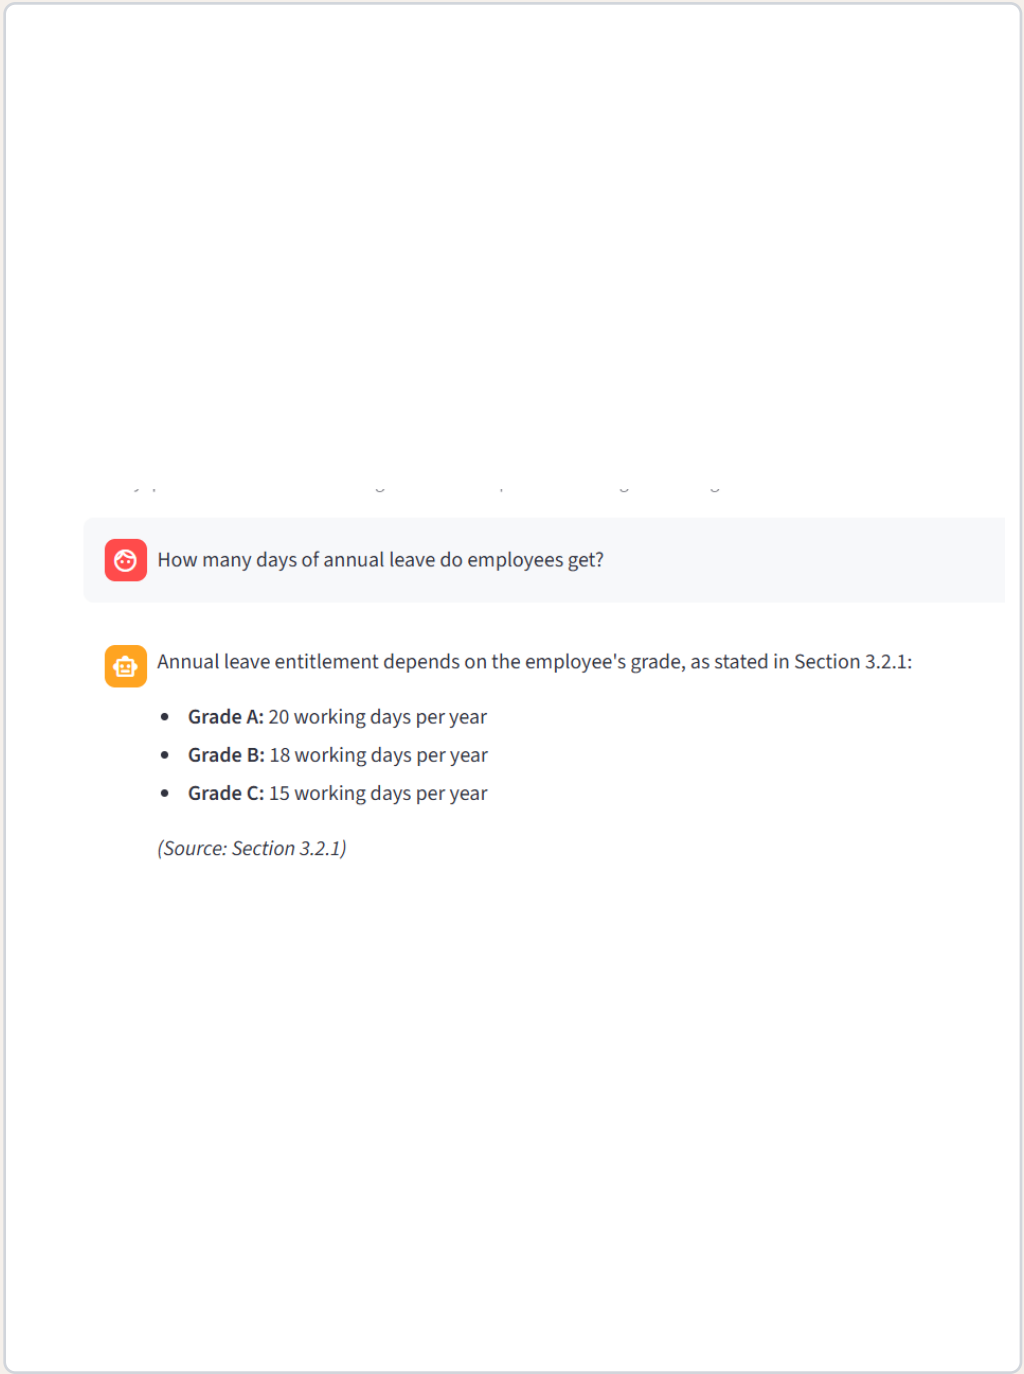

What to notice:

- **Grade breakdown** — A/B/C clearly separated
- **Section citation** — (Source: Section 3.2.1)
- **No hallucination** — only what the handbook says

```
Q: How many days of annual leave do employees get?
→ answer in right panel
```

Key result

```
Grade A: 20 days / year
Grade B: 18 days / year
Grade C: 15 days / year
Source cited: Sec. 3.2.1
```

Ask in Bangla.
Get Bangla back.

What to notice:

- **Language matched** — responds in Bangla
- **Same citation style** — (□□□□□□: □□□□ □.□.□)
- **100% pass rate** — all Bangla questions passed

Q: □□□□□□□□□□□□□ □□□□ □□□□□?
→ answer in right panel

[redacted] pay
8 weeks before + 8 weeks after
For staff with 6+ months service
Source: Section 3.5.1

Out of scope?
It refuses cleanly.

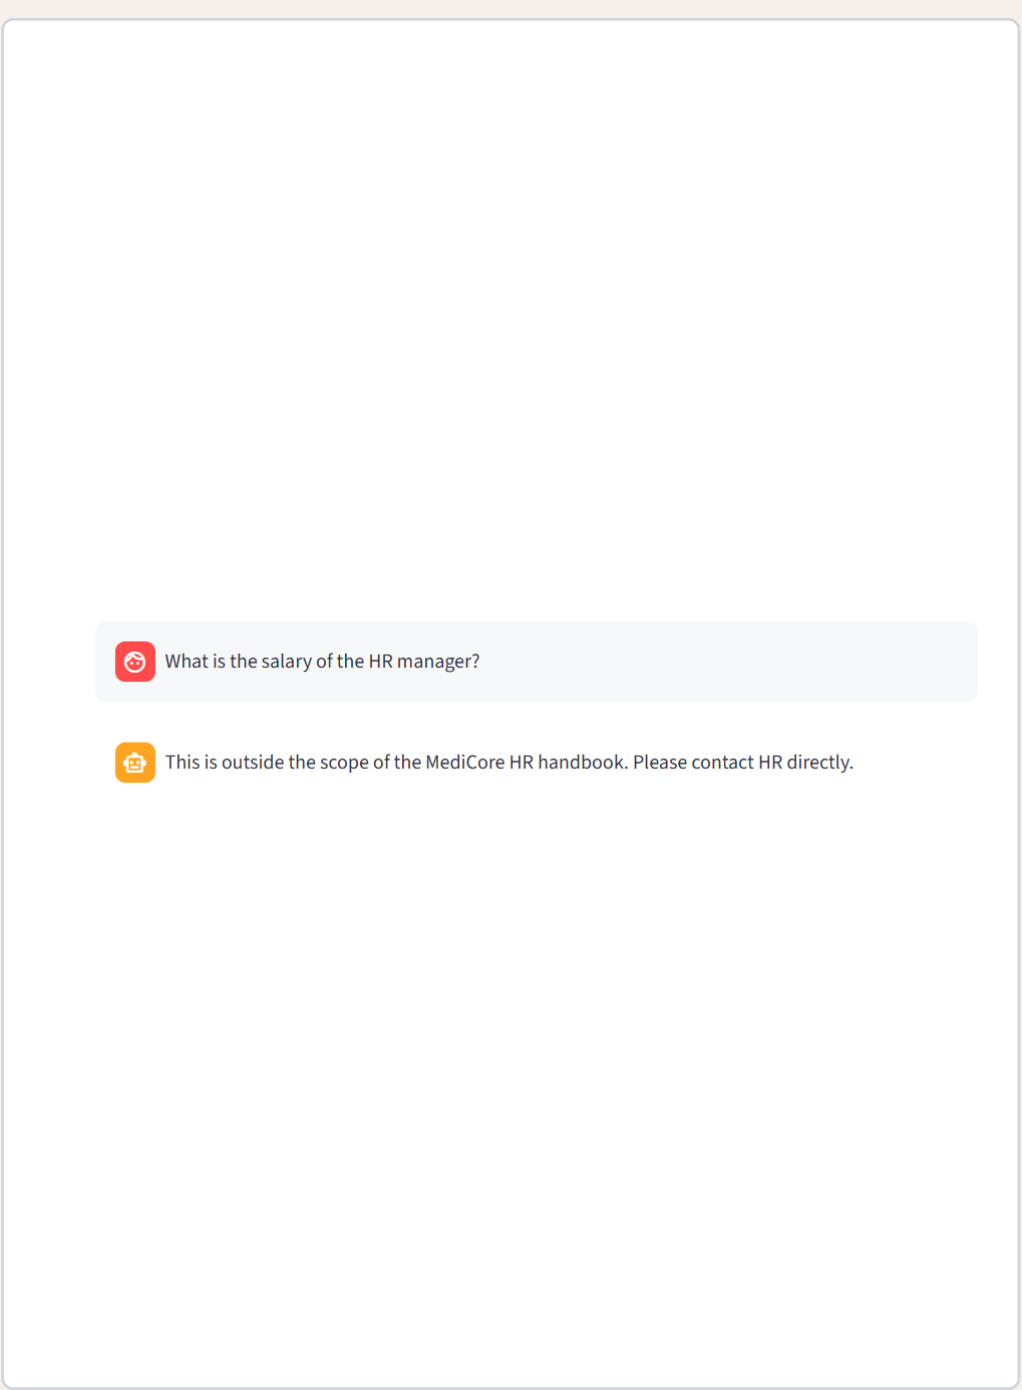

What to notice:

- **No fabrication** — does not guess or hallucinate
- **Clear redirect** — directs to HR directly
- **10/10 traps** — all adversarial questions refused

```
Q: What is the salary of the HR manager?
→ answer in right panel
```

Why this matters

Does not guess or fabricate
Directs to HR for sensitive topics
10 of 10 adversarial traps refused
Passes automated refusal check

All targets met.

50-question blind test · automated scoring · keyword + number check

95%	100%	10/10	≤3pp
English accuracy (38/40 questions)	**Bangla accuracy** (40/40 questions)	**Refusals correct** (adversarial traps)	**EN–BN gap** (within 5pp target)

TEST SET BREAKDOWN

Total questions:	50
Policy Qs (EN scored):	40 — number + keyword match
Policy Qs (BN scored):	40 — number accuracy, cross-script
Adversarial traps:	10 — must refuse, no section cite
Model:	gemini-2.0-flash-lite (free tier)

TARGETS

- ✓ **English ≥90%**
- ✓ **Bangla ≥90%**
- ✓ **EN–BN ≤5pp**
- ✓ **Refusals 10/10**
